

DISTANCE CARD™

by Airstream Jets

The revolutionary jet card
featuring distance-based pricing

Stop buying *time* and start saving

“

Instead of trying to fix the antiquated 'block-hour' pricing model we've challenged the status quo and created a completely new model.

The DISTANCE CARD is a game changer because it offers true cost clarity, unparalleled flexibility, and convenience – all at a superior value. It's unlike anything else in this market.

*Peter Maestrales
Airstream Jets Founder & CEO*

The DISTANCE CARD™ offered by Airstream Jets is the only private jet card program to offer pricing based on mileage as opposed to time. This innovative approach translates into a more versatile jet card that is superior to the competition in every way.

DISTANCE CARD combines the convenience of a jet card with the value and flexibility found only in on-demand charter.

Experience the latest innovation in private jet travel.

How it Works

The DISTANCE CARD is sold in increments of \$25K or \$100K and functions as a debit account.

Cardmembers select the most appropriate jet size on a trip-by-trip basis with no interchange fees.

Each trip is priced according to aircraft size and mileage using a simple formula:

$$\text{Total Miles} \times \text{Price Per Mile} = \text{Total Cost}$$

Once the itinerary is confirmed, the trip's total cost is deducted from the cardmembers account balance.

There are no hidden costs and no surprises!

2024 DISTANCE CARD Rates

		Total Trip Distance (Statute Miles)			
Aircraft Size		3,000 + miles	2,000 to 2,999 miles	1,000 to 1,999 miles	0 to 999 miles

Safety

TRUSTED TRAVEL

Aviation is full of new and ever changing variables that require constant risk assessment.

At Airstream Jets, we recognize that no two trips are ever the same. With that in mind, we do not solely rely on data provided by a safety management system.

At Airstream Jets, we utilize a dual-layer approach to safety auditing because your safety is a non-negotiable tenet of our business. We combine top-level, industry-accepted practices with real-world intelligence and logic that can only be achieved through decades of aviation experience.

We enlist third party auditors to ensure all operations are:

1. Conducted with the necessary certifications, ratings, and qualifications
2. Meet or exceed the standards and regulatory requirements set forth by the Federal Aviation Administration (FAA) and the U.S. Department of Transportation (DOT), or by the Aviation Authority within the region they are located if outside the USA.

Our in-house safety auditing is handled by experienced personnel, all of whom have a background in aircraft operations. The operational experience of our charter team allows us to identify and eliminate potential risks on a trip by trip basis. We focus heavily on crew experience and operational history to give you peace of mind anytime you and your loved ones travel.

ZERO INCIDENTS

Since Airstream Jets' inception over 12 years ago, we are proud to have sourced and completed thousands of flights worldwide without a single incident of any kind. This zero incident history supports the effectiveness of our dual-layer approach and the trusted travel relationships we have developed within the Business Aviation community.
